# OUR INTERNATIONALLY ACCREDITED SPECIALISED COURSES

## A GLANCE AT OUR COURSES

It's our initiative that we designed the Oil & Gas courses and always our privilege that we are the FIRST INSTITUTE in India to offer **DIPLOMA IN OIL & GAS TECHNOLOGY**. The Course is prepared with a lot of research by experts and came out with the best curriculum by understanding the growing industry demand. Every topic is covered with practical oriented way. We train our students so that they will find a good space in the industry.

University of Petroleum and Energy Studies (UPES) offers valuable expertise in the area of Oil & Gas, Power, Transportation (Aviation, Road & Marine) and the Energy Sector at large. UPES is widely recognised for its expertise as a training and competency building organization.

UPES has on its panel more than 200 experts, with experience across diverse areas that provide a strong knowledge base to the school.

## Techshore Engineering Services

It is important to ensure the quality at every stage in any industry. We Techshore provides complete quality solutions in the field of Mechanical & Civil Engineering. We provide NDT services in both Mechanical and Civil Domain

## Study Abroad Services

We provide consultancy services to those candidates who wish to study abroad in countries like Ireland, Canada etc.

## Overseas Manpower Recruitment

Manpower is like the backbone in the companies which are always asking for the talented resources to run the operation smoothly.

It is the most important part but without a good hiring process, this could not be gained. Here a strong process and robust system from talent acquisition are needed that could be easily achieved with any manpower agency. The best platform to complete the above process is contacting the manpower recruitment agency.

It simplifies the work and offers the talented candidates that could come out clean on the working criteria. Due to the effective and result oriented approach, companies follow manpower recruiters near them.

# TECHSHORE ENGINEERING SERVICES

Techshore Engineering Services offer a wide range of industrial services and engineering solutions in the disciplines of Oil and Gas, Power sector and other major industries in the disciplines of Mechanical, Instrumentation, Civil, and NDT.

Engineering division has expanded its operations to cater the sectors like Oil and gas, Power, Refineries, Petrochemicals, and offshore process and well platforms involving in detailed engineering assistance, field survey, installation /erection and commissioning. Techshore has recently added a new feather in its hat by the addition of Concrete NDT & MEP services serving variously reputed builders in Kerala. We have employed highly qualified and experienced engineers and supervisors who can effectively undertake any volume of work on short notice on fast track completion basis. At Techshore we give more priority for Quality of the work rather than the amount of work completed.

In addition, we have a wide range of outsourcing any type of equipment, material, manpower, and expertise in short notice.

## OUR SERVICES:

- ① Non Destructive testing of RC and Steel Structures
- ① Repair and Retrofitting Techniques
- ① Concrete & Material Testing
- ① MEP Services
- ① Technical Staffing ( offshore / onshore )
- ① Engineering Procurement Construction (EPC)
- ① Fabrication and erection of pipelines, structures, tanks and equipment.
